1. What is this product?

Type English law governed notes

Objectives

The product is designed to provide a return in the form of a cash payment on the **maturity date** in an amount that depends on whether the **worst performing underlying** satisfies the barrier conditions specified below. The product has a fixed term and will terminate on the **maturity date**, unless terminated early.

Early termination following an autocal: The product will terminate prior to the **maturity date** if, on any **autocal observation date**, the **reference price of the worst performing underlying** is at or above the relevant **autocal barrier price**. On any such early termination, you will on the immediately following **autocal payment date** receive a cash payment equal to the applicable **autocal payment**. The relevant dates, **autocal barrier prices** and **autocal payments** are shown in the table(s) below.

Autocal observation dates	Autocal barrier prices			Autocal payment dates	Autocal payments

* of the **initial reference price** of the relevant **underlying**.

Termination on the maturity date: If the product has not terminated early, on the **maturity date** you will receive:

- if the **final reference price** of the **worst performing underlying** is at or above 70.00% of its **initial reference price** a cash payment equal to GBP 24,000.00;
- otherwise, if the **final reference price** of the **worst performing underlying** is at or above 50.00% of its **initial reference price** and below 70.00% of its **initial reference price** a cash payment equal to GBP 10,000.00;
- otherwise, if the **final reference price** of the **worst performing underlying** is below 50.00% of its **initial reference price** a cash payment equal to (i) the **product notional amount** multiplied by (ii) (A) the **final reference price** of the **worst performing underlying** divided by (B) its **initial reference price**.

Investors should note that the payments described above are based on the expected value of the preference shares. Therefore any return you may receive on the product depends directly on the value of the **preference shares**. As such, your return is only indirectly dependent on the **underlyings**.

Under the product terms, certain dates specified above and below will be adjusted if the respective date is either not a business day or not a trading day (as applicable). Any adjustments may affect the return, if any, you receive.

The product terms also provide that if certain exceptional events occur (1) adjustments may be made to the product and/or (2) the product issuer may terminate the product, as applicable, early. These events are specified in the product terms and principally relate to the product and the product issuer. The **preference shares** in turn contain provisions allowing the **preference shares** to be adjusted or terminated early in the case of certain exceptional events, in particular relating to the **underlyings**. Any such adjustments or early termination are likely to affect the amount and timing of return you receive under the product, meaning the return (if any) that you receive on such early termination is likely to be different from the scenarios described above and may be less than the amount you invested.

You do not have any entitlement to a dividend from any of the **underlyings** and you have no right to any further entitlement resulting from any such **underlying** (e.g., voting rights).

Intended retail investor The product is intended to be offered to retail investors who fulfil all of the criteria below:

- they have the ability to make an informed investment decision through sufficient knowledge and understanding of the product and its specific risks and rewards, either independently or through professional advice, and they may have experience of investing in and/or holding a number of similar products providing a similar market exposure;
 - they seek income and/or capital growth, expect the movement in the underlying to perform in a way that generates a favourable return, have an investment horizon of the recommended holding period specified below and understand that the product may terminate early;
 - they accept the risk that the issuer or guarantor could fail to pay or perform its obligations under the product and they are able to bear a total loss of their investment; and
 - they are willing to accept a level of risk to achieve potential returns that is consistent with the summary risk indicator shown below.
- The product is not intended to be offered to retail clients who do not fulfil these criteria.

2. What are the risks and what could I get in return?

Risk indicator

← Lower risk Higher risk →

The risk indicator assumes you keep the product for 7 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less. You may not be able to sell your product easily or may have to sell at a price that significantly impacts on how much you get back.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 6 out of 7, which is the second-highest risk class. This rates the potential losses from future performance at a high level, and poor market conditions are very unlikely to impact our capacity to pay you.

To the extent the currency of the country in which you purchase this product or your account currency differs from the product currency, please be aware of currency risk. You will receive payments in a different currency so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

For detailed information about all risks relating to the product please refer to the risk sections of the prospectus and any supplements thereto as specified in the section "7. Other relevant information" below.

Performance scenarios Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

Investment: GBP 10,000				
Scenarios		1 year	4 years	7 years (Recommended holding period)
Stress scenario	What you might get back after costs	GBP 1,253.06	GBP 1,370.21	GBP 131.20
	Average return each year	-87.47%	-39.16%	-46.13%

	Average return each year	-51.25%	-26.03%	-24.59%
Moderate scenario	What you might get back after costs	GBP 8,189.89	GBP 7,820.90	GBP 10,000.00
	Average return each year	-18.10%	-5.96%	0.00%
Favourable scenario	What you might get back after costs*	GBP 11,255.93	GBP 13,400.00	GBP 16,000.00
	Average return each year	12.56%	7.59%	6.94%

* This scenario assumes that the product early terminates in November 2023 and you do not reinvest the proceeds.

This table shows the money you could get back over the next 7 years under different scenarios, assuming that you invest GBP 10,000.

The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products. The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the product. The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you. In addition, you should note that the results shown for the intermediate holding periods do not reflect estimates of the product's future value. You should therefore not base your investment decision on the results shown for these interim holding periods.

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

3. What happens if the manufacturer is unable to pay out?

You are exposed to the risk that the issuer or guarantor might be unable to meet its obligations in connection with the product for instance in the event of bankruptcy or an official directive for resolution action. This may materially adversely affect the value of the product and could lead to you losing some or all of your investment in the product. The product is not a deposit and as such is not covered by any deposit protection scheme.

4. What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. They include potential early exit penalties. The figures assume you invest GBP 10,000. The figures are estimates and may change in the future.

Costs over time

<i>Investment: GBP 10,000</i>			
<i>Scenarios</i>	<i>If you cash in after 1 year</i>	<i>If you cash in after 4 years</i>	<i>If you cash in at the end of the recommended holding period</i>
Total costs	GBP 1,796.73	GBP 1,721.20	GBP 2,046.74
Impact on return (RIY) per year	17.96725%	4.79472%	2.69366%

The costs shown in the table above represent how much the expected costs of the product would affect your return, assuming the product performs in line with the moderate performance scenario. Disregarding the impact on your return in that scenario, the estimated entry and exit costs as a percentage of the **product notional amount** are estimated to be 17.99% if you cash in after year 1, 17.99% if you cash in after 4 years and 16.99% if you cash in after the recommended holding period.

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Composition of costs

The table below shows:

- The impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period.
- The meaning of the different cost categories.

<i>The table shows the impact on return per year.</i>			
One-off costs	<i>Entry costs</i>	2.69366%	The impact of the costs already included in the price.
	<i>Exit costs</i>	0.00%	The impact of the costs of exiting your investment when it matures.
Ongoing costs	<i>Other ongoing costs</i>	0.00%	The impact of the costs that we take each year for managing your investments.

The costs shown in the table above represent the split of the reduction in yield shown in the costs over time table at the end of the recommended holding period. The split of the actual estimated costs of the product as a percentage of the **product notional amount** is estimated to be as follows: entry costs: 16.99% and exit costs: 0.00%.

5. How long should I hold it and can I take money out early?

Recommended holding period: 7 years

The product aims to provide you with the return described under "1. What is this product?" above. However, this only applies if the product is held to maturity. It is therefore recommended that the product is held until 29 November 2027 (maturity).

The product does not guarantee the possibility to disinvest other than by selling the product either (1) through the exchange (if the product is exchange traded) or (2) off-exchange, where an offer for such product exists. No fees or penalties will be charged by the issuer for any such transaction, however an execution fee might be chargeable by your broker if applicable. By selling the product before its maturity, you may receive back less than you would have received if you had kept the product until maturity.

Exchange listing	Not applicable	Price quotation	Percentage
Smallest tradable unit	GBP 10,000.00		

In volatile or unusual market conditions, or in the event of technical faults/disruptions, the purchase and/or sale of the product can be temporarily hindered and/or suspended and may not be possible at all.

6. How can I complain?

Any complaint regarding the conduct of the person advising on, or selling, the product can be submitted directly to that person.

Any complaint regarding the product or the conduct of the manufacturer of this product can be submitted in writing at the following address: Citigroup Centre, Canary Wharf, 33 Canada Square, London, E14 5LB, United Kingdom, by email to: EMEA.Markets.Complaints@citi.com or at the following website: <http://www.citigroup.com/>.
